

Homemade Birdseed Treats

3/4 cup flour
1/2 cup very warm water
3 tablespoons corn syrup
1 package (or 2 1/2 teaspoons) Knox gelatin
4 cups wild birdseed
non-stick cooking spray

In a large bowl, stir in gelatin and warm water. Stir until dissolved. Whisk in corn syrup and mix. Add flour and stir to make a paste. Pour in the birdseed and mix until combined.

Spray bundt pan with cooking spray. Press birdseed mixture into greased pan. Press firmly. Leave in the pan over-night. The next day, tip the pan up-side down onto wax paper or foil. It should "slip" right out of the pan. Now use twine, rope or ribbon to hang thru it and place outdoors for the birds to enjoy !
